# Gender Equality Plan (GEP)

Version of: January 2022

[www.commpla.com](http://www.commpla.com)

- Gender Equality is one of the Sustainable Development Goals set by the 2030 Agenda of the United Nations (“Achieve gender equality and empower all women and girls”) and a core principle of the European Union.
- Trust-IT Srl (Trust-IT, for short) is committed to ensure a culture that enables women and men equal opportunities within our organisation and this document, the Gender Equality Plan (GEP), states goals and status of progress at Trust-IT.
- The GEP applies also to Trust-IT’s subsidiary COMMpla Srl (COMMpla, for short), that is co-located with Trust-IT, is run by the same management, and has an internal agreement with Trust-IT to mutually second personnel whenever needed by projects.
- The GEP has a strategy based on four priority areas of intervention (1. equal access to employment, recruitment, and selection; 2. performance evaluation and career progression; 3. work-life balance; 4. internal and external information and communication) and the continuous monitoring of gender equality indicators.
- An internal working group (GEPWG, indicated below) is set up at Trust-IT to ensure monitoring and continuous progress to achieve the objectives set in the GEP. The GEPWG meets at least quarterly.

***GEPWG: Silvana Muscella (Coordinator), Michele Nannipieri (Deputy Coordinator), Anna Anicito (Secretary), Nicholas Ferguson, Noemi Fracassi, Sara Pittonet Gaiarin, Paolo Lombardi, and Alessandro Petrocelli (Team Members).***

- Staff is monitored as a joint team (Trust-IT+COMMpla) and is subdivided in three categories: Directors, Senior Team members, and Specialists.
- The female representativeness at Trust-IT+COMMpla is always above 33% and overall is at 39.5%, with a peak amongst the Specialists (42.3%).
- This GEP has been presented internally to the Trust-IT+COMMpla team and is uploaded in both the Trust-IT and COMMpla websites.

**Our goal for the next 3 years is to increase the “overall” figure for females to 50%, although we do realise that the target is going to be more challenging because of the intrinsic low rate of women in the software development sector in Europe**

## 1. Equal access to employment, recruitment, and selection

Objective	Measures	Target	Timeline	Indicators	Who is in charge of this?
1.1 Promoting balanced representation of females and males in the working team, across all staff categories	1.1.1 Ensuring that criteria and procedures for recruiting and selecting human resources bear in mind the principle of equality and non-discrimination based on sex	All job applicants	2022-2023-2024	% females recruited per year  % females in the Senior category  % females in the Specialist category	GEPWG
	1.1.2 Encouraging the application and selection of females and males in areas where they are underrepresented	All job applicants	2022-2023-2024	% females recruited per year  % females in the Senior category  % females in the Specialist category	GEPWG + All staff members inviting prospect candidates
